## PROJECTS

### E-commerce Website Clone

#### Tools Used: HTML, CSS

Developed a Amazon website clone with a focus on replicating the user interface and overall layout. Emphasized pixel-perfect design to match the original, showcasing the ability to create responsive and visually appealing websites using only HTML and CSS.

### Corporate Landing Page Design

#### Tools Used: HTML, CSS

Created a professional landing page for a company, focusing on clean design, smooth navigation, and effective use of visual hierarchy. The page was designed to be responsive across different devices, ensuring an optimal user experience on both desktop and mobile platforms.

### Responsive Calculator Application

Developed a responsive calculator that allows users to perform basic arithmetic operations. The project demonstrated the ability to combine HTML, CSS, and JavaScript effectively, with a focus on responsive design and interactive features.

## ACADEMIC PROFILE

### WORLD COLLEGE OF TECHNOLOGY AND MANAGEMENT
